

SRI B. B. SAVANAK — Does he mean to say that by wearing helmets there will be no accidents.

SRI D. DEVARAJ URS.— What I mean is that the death due to head injury will be less. This is the opinion of experts, doctors and everybody. That is why the helmet has been prescribed. I do not know whether this has been made compulsory in other States. Let others copy us if they want.

Another point made out was that the price of helmet has gone up because there is great demand. For that, if entrepreneurs come forward to manufacture them, certainly Government will help them.
